GAJ X

CONTAINERISED SOLAR BESS SERIES

THE B.E.S.S.(T) SOLUTION FOR YOUR GREEN POWER PLANT

The GAJ X is the containerised Plug 'N' Play Battery Energy Storage solution from Statcon Energiaa, revolutionising the decarbonisation in projects across India.

Solar ready, with High power MPPT up to 250 KW, expandable further with AC coupling, it allows for a flexible source addition as per the project site requirement.

Batteries are tested and selected as per your application, allowing for the most value at the best price. Currently compatible with Li-ion, VRLA, GEL, LMLA and a variety of other chemistries, with all fire protections and IP Rating of IP 54

In most EPC work, civil work of Electrical panels, takes up major time. GAJX solves the problem with a single day installation procedure

**QUICK
INSTALLATION**

**PLUG AND PLAY
OPERATION**

**EASY TO TRANSPORT
FROM SITE TO SITE**

**SINGLE WARRANTY
WINDOW**

COMPACT ALL IN ONE ENERGY SET, CONNECT, GO !

Frequent DG set bans have led to an increased adoption of BESS solutions with Solar. Standard ratings are given below with customisation possible.

MODEL	RATING
GAJX 50 96	50KVA HBD PCU with 96 KWh
GAJX 100 144	100KVA HBD PCU with 144 KWh
GAJX 150 216	150KVA HBD PCU with 216 KWh
GAJX 200 288	200KVA HBD PCU with 288 KWh
*Customizable ratings available on request	

The solution enables single window for warranty claims.

The GAJ X is widely being used in the industry to replace DG Sets, and provide primary power in mini grids.

Whatever your BESS needs, the GAJ X steps up to for applications needing Backup power, Peak shaving, Peak Shifting, Time of Day charge discharge, Load Levelling, Grid Power Import Control, Grid Export among others
